

MOBILE TEATSCRUBBER

For tie stall & stanchion barns

AUTOMATED COW PREP FOR TIE STALL AND STANCHION BARNs

The FutureCow Mobile TeatScrubber offers consistent and efficient cow prep for herds with up to 200 cows.

WHAT IT OFFERS

The FutureCow Mobile TeatScrubber is a full service, portable teatscrubber that washes, stimulates, disinfects, and dries teats all in one easy step. Users of the Mobile TeatScrubber have reported cutting prep time, eliminating the use of towels, improved let down times and better milk quality results.

The completely mobile system allows you to freely move the technology along with you as you prep your cows. Engineered with ease of use in mind, our system features a 6-gallon RTU tank with enough solution to prep up to 200 cows, a battery that powers the unit for up to 6 hours of continuous use, and an on-board charger allowing for easy recharging. Simply plug in the charger and refill the tank as needed.

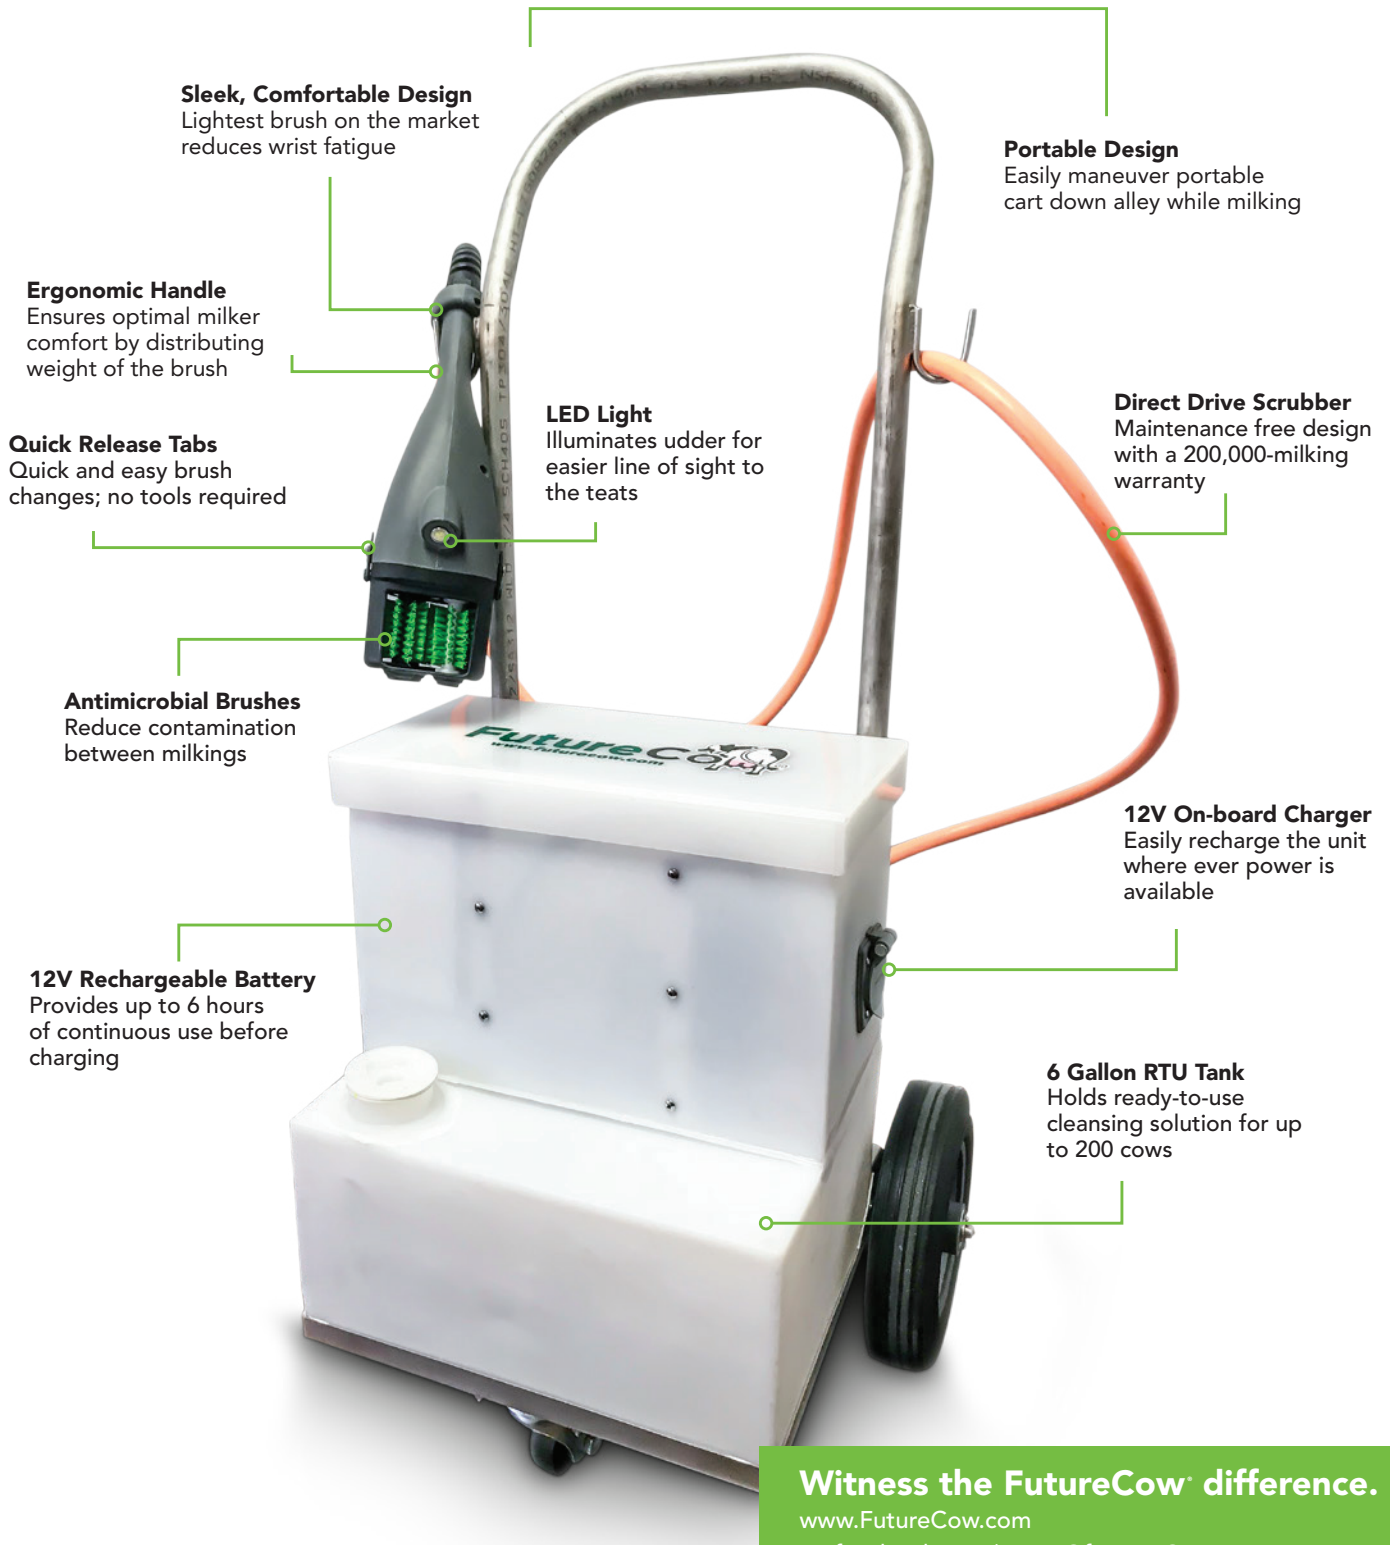

NECESSITY FOR TIE-STALL BARNs

Users of the Mobile TeatScrubber reported having saved up to 30 minutes per milking. Economically priced, this state of the art system speeds up your prep process allowing you to milk more cows at a time as opposed to more traditional prep routine.

FEATURES & BENEFITS

- Increased stimulation
