LINE 7[®]

TERRAIN

Line 7 began life in 1963 making wet-weather clothing for sailors.

New Zealand's high rainfall and harsh conditions made it the perfect testing grounds. Line 7's reputation for manufacturing quality wet-weather clothing soon spread and using the design expertise and technical knowledge gained in the sailing market, they diversified to a wider range of industries including the agricultural sector.

Over the years the brand has grown to become a Kiwi icon in the retail lifestyle, agricultural and marine clothing markets and continues to cement themselves as market leaders in manufacturing quality, innovative garments.

Line 7 is proudly celebrating over 50 years of providing quality and performance clothing to our customers in NZ and around the world.

GLACIER

Introducing the next generation of wet-weather gear.

A new range of garments that deliver performance, functionality and above all else, ultimate comfort. The innovative 3-layer performance fabric is 100% windproof, waterproof and highly breathable while being super lightweight making it our lightest range yet.

Now stronger than ever

- Newly constructed fabric for greater strength
- New Pant/Bib design - no inside leg seam to eliminate rubbing/wearing
- New zip design to ensure quick and easy zip use.

Premium Breathable + Waterproof

CLIMATE

Changeable weather cycles bring cold winds and quick downpours. With this in mind, the Climate range has been designed with a durable canvas weave outer for water and wind resistance while remaining breathable. The fleece lining makes these garments ideal for comfort and keeping those harsh colder winds at bay.

+ FAQs

How do I contact Line 7?

Contact us by phoning our freephone number - 0800 865 463, or by emailing us on info@line7.co.nz

Where can I buy Line 7 gear?

Visit our website www.line7.co.nz/terrain for a list of stockists near you.

How do I know what size I need?

Please refer to the sizing chart on the next page.

How do I know what range is best for me?

Please refer to page 6 of this catalogue for a quick guide to all our ranges. If you require further information or have any questions, please contact our customer services team or your local distributor to discuss.

What is the warranty on my gear?

All Line 7 products are covered by the Line 7 Guarantee. If you damage a garment through normal wear and tear, or by accident, please contact our customer services team or local distributor to discuss the best repair option.

How do I care for my garment?

Each individual product has a care label explaining the best way to care for your garment. It is important that care instructions are followed to prevent damage and to help prolong the life of your gear.

+ Caring for your garment

Breathable + Waterproof (Nylon)

Washing + Drying Instructions

- Wash garments using soap powders only. Domestic liquid soaps and soap flakes can affect the breathable properties of the garment.
- If the garment is heavily soiled or has been in contact with acids/alkalis or petroleums, wash immediately after use. If left, it may damage the fabric/coating which will subsequently affect the performance of the garment.
- Can be tumble dried on low heat.

Tips

- Tumble drying can help revive the DWR (Durable Water Resistant) coating to the outer fabric (up to 10 cycles).
- After use in wet conditions, ensure the garment is hung to dry, as left soaking can effect the breathability of the fabric.

- For further advice or clarification regarding the care of your garment, refer to the care label attached to the garment or contact Line 7 directly.

Waterproof (PU)

Washing + Drying Instructions

- Wash regularly (refer to care instruction label on garment)
- If the garment is heavily soiled or has been in contact with acids/alkalis or petroleums, wash immediately after use.

Tips

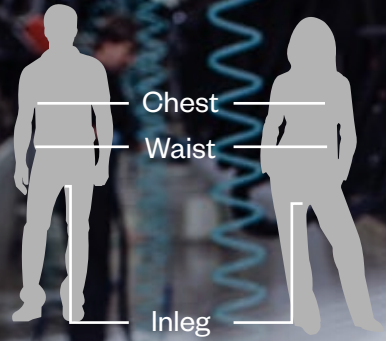

- After use in wet conditions, ensure the garment is hung to dry, as left soaking can effect the breathability of the fabric.
- For further advice or clarification regarding the care of your garment, refer to the care label attached to the garment or contact Line 7 directly.
