

Teatwand STEPOVER

Control mastitis with consistent teat spraying

"I was sceptical about relying on an automated sprayer at first, but being involved in the development and seeing the results first-hand boosted my confidence and it's paying off dividends in labour and stress savings"

Greg and Barbara Morriss, Canterbury, New Zealand

Teatwand Stepover

- Reliable and accurate teat spray application
- Consistent teat spraying to increase efficiency
- Quick and easy to install
- Excellent pre or post spray spraying capability
- Automatic built-in wash system and high flow option
- High quality construction - designed with mastitis specialists
- Intelligent speed tracking
- 4 High quality stainless steel spray nozzles for optimal coverage
